PLAY-WELL TECHNOLOGIES

Play-Well TEKnologies was founded by Tim Bowen in 1997. Introduced to the LEGO® building system in 1996 and recognizing it to be both a popular play medium and a tremendous learning medium, Tim began to develop projects which drew on his professional experience and combined the elements of fun, challenge, and learning. He began operating a summer camp program in 1997, followed by after school enrichment classes in 1998. With steady growth of the company, project development is now undertaken by a staff of instructors bent on constantly improving the programs. We do this in the context of fun-filled engineering and architectural projects, activities that both the children and the instructors enjoy! All camps are taught by Play-Well instructors.

#### SANCHIN-RYU KARATE
Sanchin-Ryu is an artistic form of self-defense designed in a way, so that size and strength, age and athletic ability aren’t factors in defending one’s self. Taught on an individual basis, students study in a non-competitive environment while working on Sanchin-Ryu’s practical movements and non-nonsense approach to self-defense. To truly understand every facet of conflict resolution we study three levels of self-defense awareness; physical, mental and emotional.
